ADOPTION APPLICATION

It is the policy of National Greyhound Adoption Program to assure that each person who adopts a greyhound not only be aware of that responsibility, but that each person will be capable of and willing to accept that responsibility morally, physically and financially. It is quite true that not every person who desires to own a dog, should own a greyhound.

The following questionnaire has been designed to aid both you and the Adoption Center in deciding if you and/or your family are indeed adequately prepared to assume the type of responsible ownership which we are endeavoring to assure for our adoptive greyhounds. The more information we obtain about your home and lifestyle, the better we can evaluate your needs and match a greyhound to suit your environment. If there is not enough space, please continue typing to add another line or attach another sheet of paper.
