Fall 1995

Countdown to Super Picnic III Saturday, September 16th

In just a few short weeks our picnic will be upon us. This gathering underscores the tragedy of greyhound racing and the joys of adoption. Some of our pets and companions wear scars of their racing past both on the outside and inside. In spite of these scars their incredible desire to adjust and support our efforts shines through. Someone recently wrote that her marriage had broken up and how during this period her greyhound just seemed to put out that extra support she needed. Another wrote that they were surely the lucky ones to have a greyhound in their home. These stories abound on a daily basis. If you haven't attended a NGAP Picnic you should come. What a sight to see hundreds of greyhounds in one place. There will be many activities, as well as the Picnic Special and Super Special, the real bargains of the day. It's a day of fun for all.
